- **1,000+ sacks of waste removed annually** from the Pasig River, protecting waterways & communities
- **280+ volunteers** mobilized for reforestation, biodiversity conservation & waterway protection

Media band experience in The Philippines

MUSEO DEL GALEÓN

Manila, Philippines

Client: Museo del Galeón

Scope: Concept, production development and AV integration

ACCIONA Cultura delivered the Media Band Experience for the Museo del Galeón – the Philippines' first maritime museum dedicated to the history and legacy of the Manila Galleon trade. The project involved the design and production of a landmark audiovisual installation featuring a 188-meter-long curved LED wall suspended above a full-scale replica of the Galeón Espíritu Santo, creating a panoramic storytelling environment. Developed in collaboration with historians and curators, the experience integrates cutting-edge media technology and historical content to bring to life the centuries of cultural, economic, and maritime exchange that connected Asia, the Americas, and Europe.

LIGHT AT HOME
