How Contractors and Consultants Can Position for ADB-Financed Opportunities

1. **Understand who does what.** ADB finances and monitors project implementation while our clients procure contracts, select contractors, and consultants, and implement the projects.
2. **Engage early and understand the project cycle.** Our project take many years—from feasibility studies and due diligence to design, procurement, construction, and O&M.
3. **Bring proven solutions, not just new technology.** Clients are interested in innovative technologies and approaches, but also look for demonstrated performance, reliability, and a strong track record.
4. **Think beyond construction.** Sustainability is critical. ADB and our clients increasingly look for solutions that support effective implementation and O&M after project completion.
5. **Consultancy services.** Capacity development, construction supervisions,
