The Evolution of e-GP

From digital transactions to intelligent procurement

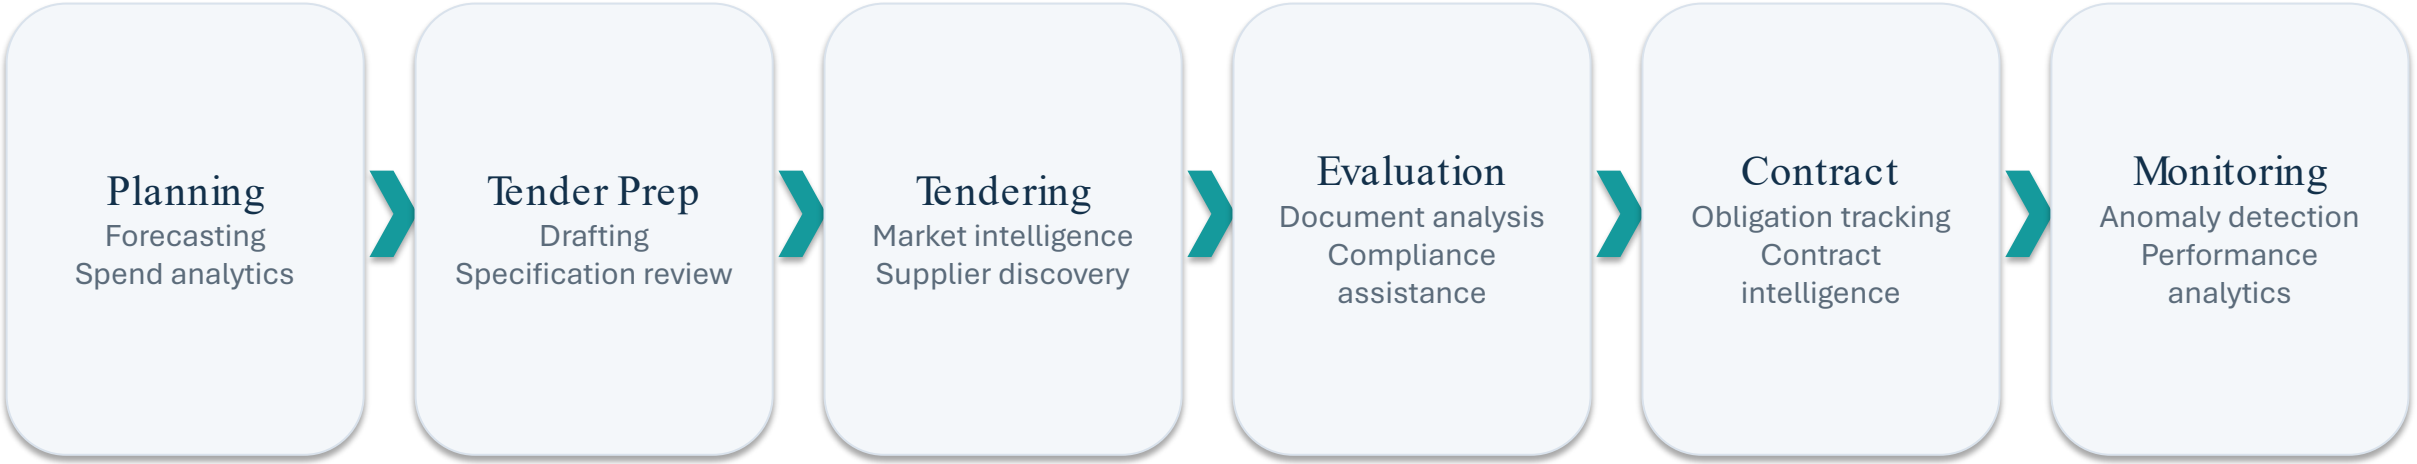

The shift is not simply from e-GP to AI.

It is from transaction processing → intelligence-driven procurement.

AI Across the Procurement Lifecycle

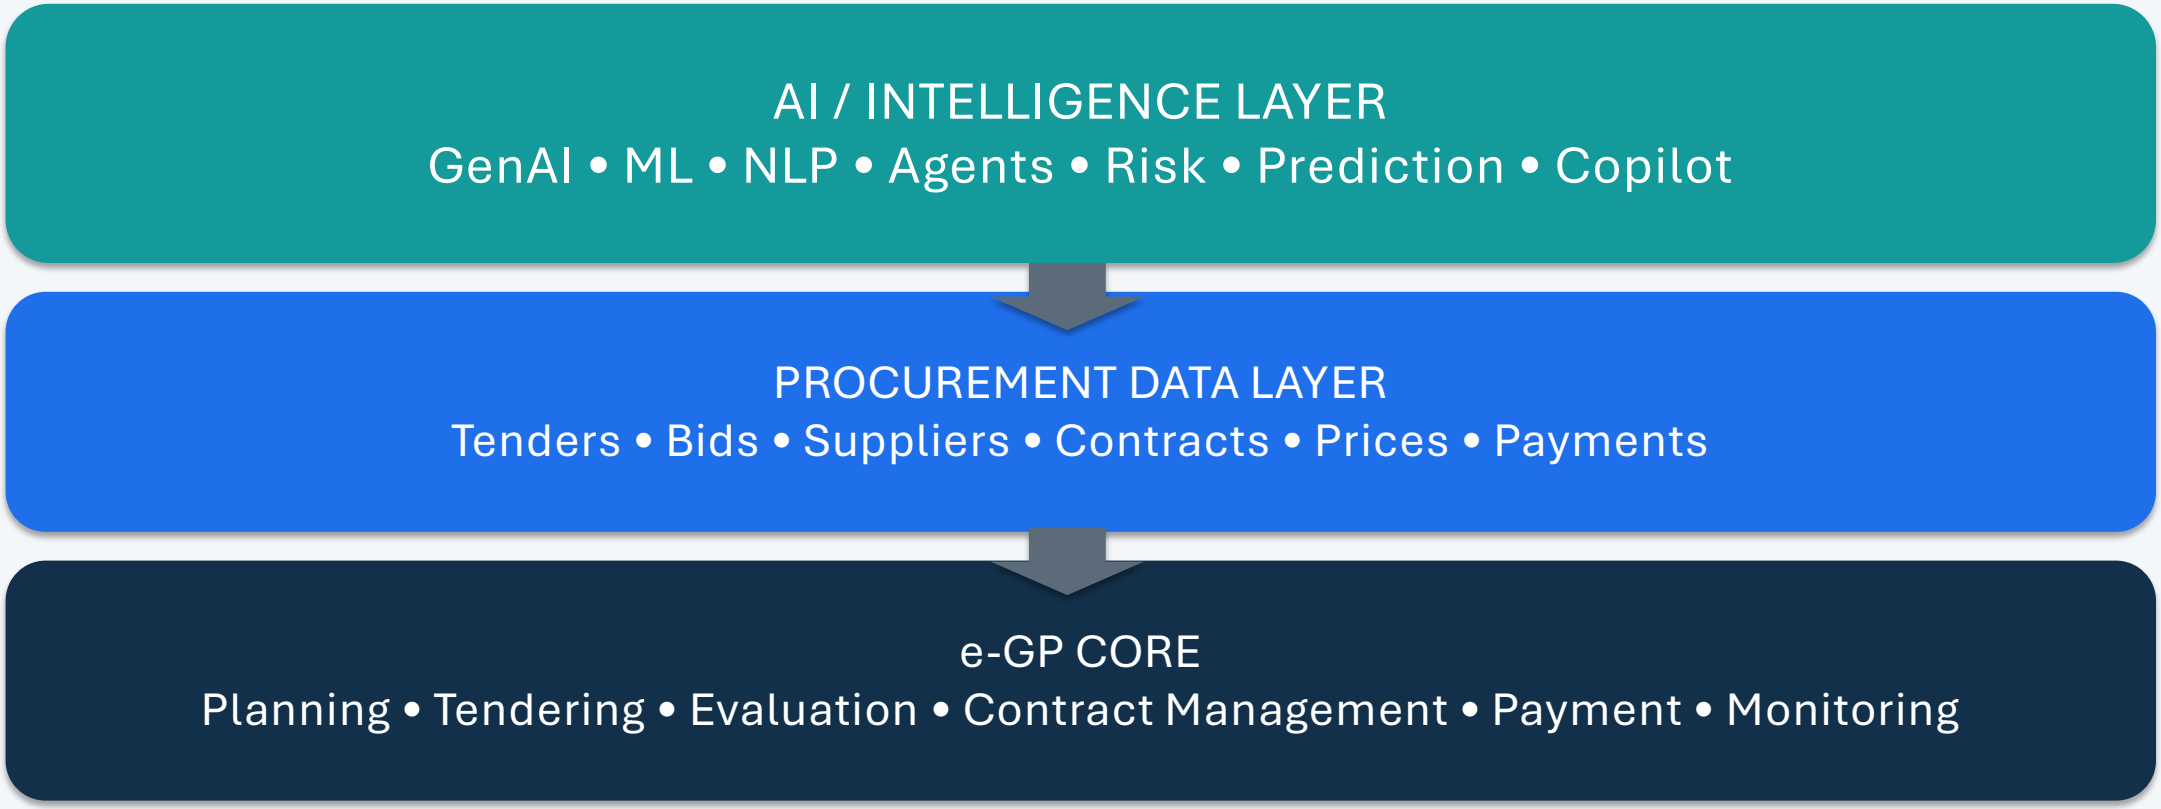

The opportunity is distributed across the full e-GP journey

The value is not one “AI feature” — it is intelligence embedded across the lifecycle.

The AI Intelligence Layer

A practical architecture for next-generation e-GP

Interoperability

Data Quality

Explainability

Human Oversight

The Next Competitive Frontier

From e-GP platforms to procurement intelligence platforms

01	AI-Native	Intelligence designed into the platform
02	Data-Native	Every transaction becomes usable intelligence
03	Interoperable	e-GP + finance + tax + registries + open data
04	Human-Centred	AI recommends; people remain accountable
05	Measurable	Time • competition • compliance • transparency • value

Intelligent procurement infrastructure
