Road to Multi Modal Transport Infrastructure

Change in Share of Road Infrastructure in SASEC Transport Investments

SASEC Transport Projects (2001-2010)

SASEC Transport Projects (2016-2025)

Transport Corridors to Economic Corridors

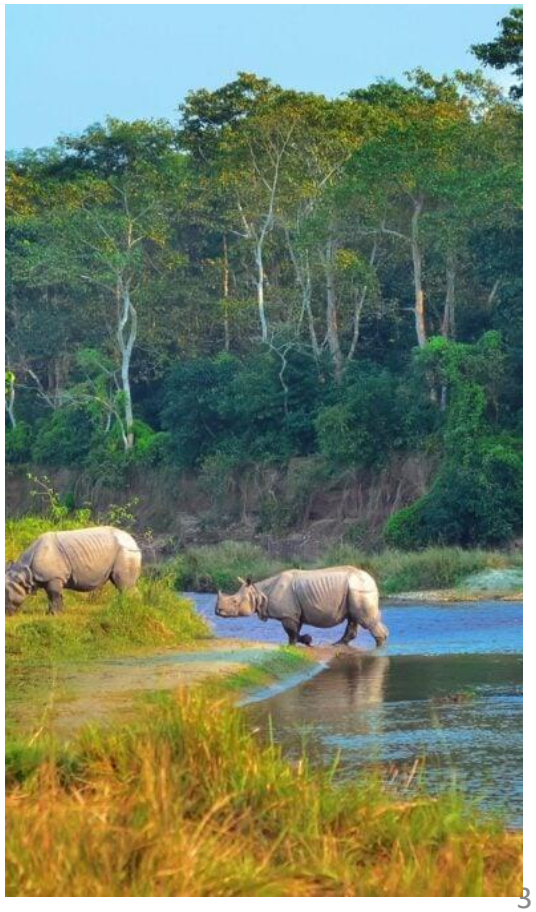

Upgrade Border Facilities (CAREC)

Digitalize Trade System (Lao PDR Project)

Support Sustainable Tourism (Nepal Project)

Subregional Frameworks toward Pan-Asian

Pan-Asia Transport Model

- **Purpose.** Assess supply chain disruptions across Asia and identify priority investments in transport infrastructure, logistics, and border crossing facilities to enhance supply chain resilience and regional connectivity.

- **Coverage.** Links road, rail, and water networks across 32 countries with 468 traffic zones and 20 external zones.

Transport Sector’s Role in RCI

Three key shifts in ADB's approach to RCI in the transport sector

We are moving:

From roads to multimodal connectivity;

From transport corridors to economic corridors; and

From subregional connectivity to a broader Pan-Asian transport network.

Thank you.
