What is NDC 3.0

Definition: NDC 3.0 represents the third iteration of Nationally Determined Contributions, due in 2025, where countries will update their climate targets with increased ambition.

Context: NDC 3.0 builds on the outcomes of the 2023 Global Stocktake, requiring countries to align more closely with the Paris Agreement's goals of limiting global warming to 1.5°C

ROUTES AND OPPORTUNITIES TO AMBITIOUS AND IMPLEMENTABLE NDCS

Routes that help countries reflect on the 1st GST and raise ambition

 Aligned to the Paris Agreement Temperature Goal

 Aligned to the Paris Agreement Global Goal on Adaptation

 Delivers a Just and Equitable Transition

Routes that help countries ensure implementable NDCs

 Mobilizes all-of-gov't & all-of-society

 Identifies support needs

 Technically sound & transparent docs

 Unlocks finance

Challenges Faced by DMCs

Capacity and Resources: Many DMCs face challenges in technical capacity and lack sufficient resources to implement ambitious NDCs.

Financial Barriers: Access to climate finance remains a critical barrier for DMCs, requiring innovative financing solutions.

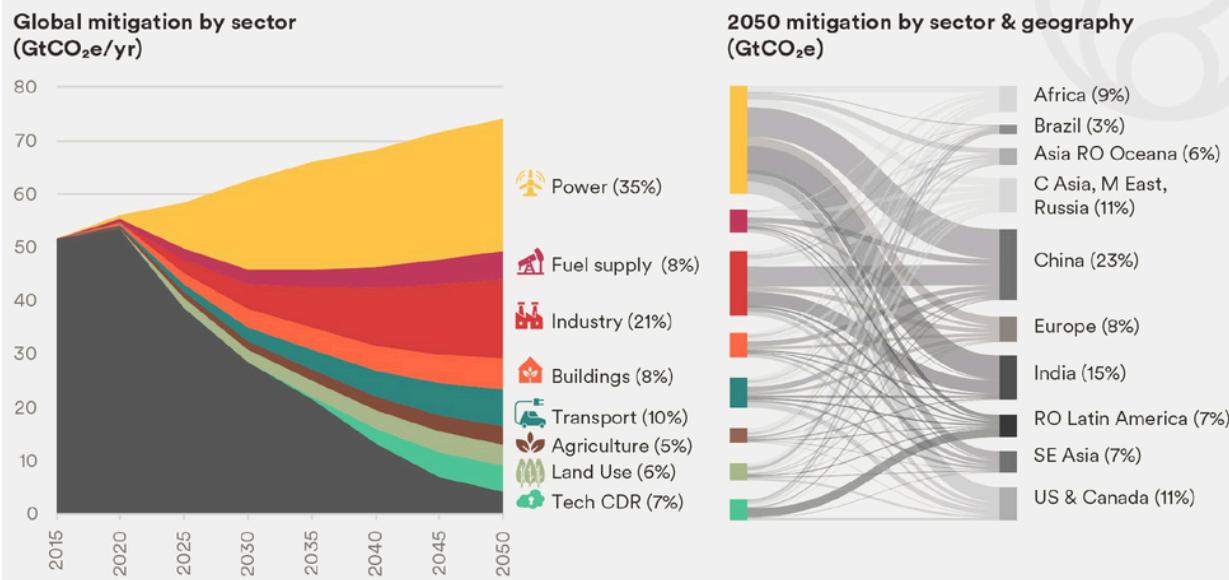

Institutional Coordination: Aligning NDCs with national development strategies requires effective institutional coordination across ministries and sectors.

The Role of ADB in Supporting NDC 3.0

Climate Diagnostics, Strategic and Investment Planning

- **Customized Climate Assessments:** Tailored evaluations of climate vulnerabilities and capabilities to inform NDC enhancements.
- **Sectoral Roadmaps Development:** Collaborating with governments to develop sector-specific decarbonization and resilience roadmaps that integrate into national climate and development strategies.
- **Policy Advisory:** Offering expertise in shaping effective climate policies that are both ambitious and pragmatic, ensuring policies are well-integrated with global climate goals.
- **Project Preparation:** Facilitating the development of bankable projects that align with NDC targets, leveraging ADB's project preparation facilities to enhance investment readiness.
- **Technical Assistance:** Providing targeted resources for capacity building, institutional strengthening, and specific climate action initiatives.
- **Policy-Based Lending (PBL):** Supporting policy reforms and institutional development to foster enabling environments for effective NDC implementation.

Investments and Innovative Financing

- **Investment in Climate Projects:** Direct financing in renewable energy, energy efficiency, and climate resilience projects that contribute to NDC goals.
- **Mobilizing Private Sector Investment:** Leveraging ADB's private sector operations to attract co-financing for climate-related projects, enhancing the scale and impact of investments.
- **Innovative Financing Solutions:** Structuring financial products such as green bonds and climate funds that enable DMCs to access necessary capital for large-scale climate initiatives.

INTRODUCING THE **NDC 3.0 NAVIGATOR**

An interactive tool that supports the development of NDCs to be submitted in 2025. It helps countries raise ambition and accelerate implementation of the next round of NDCs.

Visit the Navigator at www.ndcnavigator.org

The screenshot shows the homepage of the NDC 3.0 Navigator. The header includes the NDC 3.0 Navigator logo, a search bar, and navigation links for 'Learn About the NDC 3.0 Navigator', 'Reflect on Country Needs and Priorities', 'Explore Routes to Ambitious and Implementable NDCs', and 'Support Opportunities'. The main content area features a large title 'NDC 3.0 Navigator' and a subtext: 'A tool for the development of NDCs to be submitted in 2025, to support enhanced ambition and accelerate implementation.' Logos for 'NDC PARTNERSHIP' and 'United Nations Climate Change' are present. To the right is a graphic of a compass rose inside a magnifying glass, surrounded by icons representing various development factors like a thermometer, coins, a balance scale, a factory, a magnifying glass, and puzzle pieces. Below the graphic, text states: 'The NDC 3.0 Navigator is an interactive tool that supports the development of NDCs to be submitted in 2025. It helps countries raise ambition and accelerate implementation of the next round of NDCs.' Further down, it says: 'The NDC 3.0 Navigator seeks to support and inspire country NDC teams, their experts, and partners, bringing together knowledge and support in a series of [Routes to Ambitious and Implementable NDCs](#), which:'. A bulleted list follows: '• Provide examples of Opportunities to consider when developing NDCs 3.0'

HOW TO USE THE

NDC 3.0 NAVIGATOR

Learn

About the context for NDCs 3.0 and the NDC 3.0 Navigator

Reflect

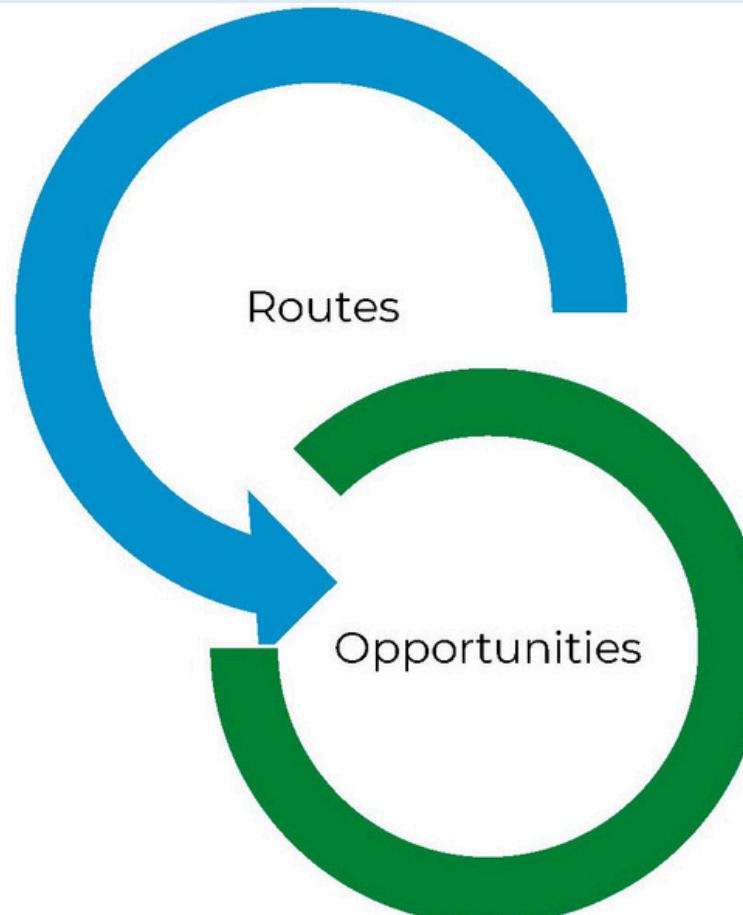

On country needs and priorities for NDC 3.0

Explore

The routes and opportunities to ambitious and implementable NDCs 3.0

NAVIGATING THE NEXT GENERATION OF NDCS

Thank You!
