Republic of Tajikistan

Panel Discussion

What early warning arrangements do you have in place with sectors?

How are climate information services used in these arrangements?

Panel Discussion

What do you see as the three most significant challenges in early warning systems in your country or where do you see the bottlenecks?

Panel Discussion

From a sectoral perspective, what do you see as the most important to your country's economy?

Where do you see entry points for supporting the sector on climate information services and early warning systems?

What support is needed to strengthen your CI and EWS project preparation to improve the likelihood of business case acceptance?

Panel Discussion

From a policy perspective, what reforms are needed to ensure operational maintenance and sustainability of CI and EWS investments?

Panel Discussion

What are the key lessons from the implementation of climate information services and early warning systems in your country that enable disaster preparedness?
